Information sheet produced: 30/04/2023.

Our approach to meeting the Products & Services Outcome and Price & Value Outcome – Information for distributors of the Product.

This summary document is being provided to you to fulfil our responsibilities under PRIN 2A.4.15R and PRIN 2A.3.12 R (2). -

It is designed to support you to comply with your responsibilities under PRIN 2A.3.16 R and PRIN 2A.4.16 R. Please note that you are ultimately responsible for meeting your obligations under 'The Consumer Duty.'

This information is intended for intermediary use only and should not be provided to customers.

1. Summary of our assessment

We have assessed that:

- Our Joint Borrower Sole Proprietor (JBSP) product range continues to meet the needs, characteristics, and objectives of customers in the identified target market.
- The intended distribution strategy remains appropriate for the target market.
- The Product provides fair value to customers in the target market (i.e. the total benefits are proportionate to total costs).

2. Product characteristics & benefits

The products are designed to meet the needs of the target group, borrowers requiring affordability support from a family member. The product features and criteria are designed to support these needs.

- Fixed rate repayment mortgages for the purchase of residential properties in England and Wales, exclusively designed for those who need additional support to afford a mortgage by adding a family member(s) to the loan to increase affordability. Sole proprietorship allows the family member(s) to assist without being liable for the additional stamp duty/land transaction tax cost.
- Fixed rate terms up to five years
- Maximum Loan to Value (LTV) is 90%
- Maximum loan size £650,000
- There is no product fee for new acquisitions taking out a JBSP specific loan.
- An Early Repayment Charge (ERC) of up to 5% is typically charged on full or partial repayments during the promotional term that exceed agreed overpayments. The ERC is tiered and will reduce over the term of the fixed period.
- Overpayments of up to 10% of the outstanding balance at the start of each calendar year can be made without incurring an ERC.

Full eligibility criteria can be accessed on our intermediary website via [Intermediaries \(principality.co.uk\)](https://www.principality.co.uk)

3. Target market assessment and distribution strategy

This target market assessment matrix segments the target customers for the Product, recognising their different needs to enable you to tailor the services you provide when you distribute the Product.

Customer Circumstances	Distribution Strategy	Customer Needs & Objectives
Customers purchasing a new home (including first time buyers), who do not meet the affordability criteria for a mortgage by themselves.	Our JBSP mortgages can only be taken out with us directly or by registered Intermediaries and are sold on an advised basis.	<p>The ability to purchase a property sooner, without having to wait until they have sufficient income to meet the affordability criteria by themselves.</p> <p>Those who want certainty for their monthly repayments for a fixed period.</p> <p>Those who want to ensure that their mortgage will be paid off at the end of the loan term.</p> <p>Agreed flexibility to make overpayments of up to 10% per year, without incurring a charge.</p>
Existing JBSP mortgage customers seeking a rate switch at the end of a fixed period	These customers may take out a standard residential product at this stage.	<p>The ability to purchase a property with a smaller deposit and/or lower equity.</p>

The Product is not designed for customers who:

- Can afford a mortgage without affordability support.
- Want to re-mortgage or borrow more.
- Do not want to live in their home.
- Want the flexibility to make large overpayments or early repayment without incurring a charge.
- Do not want to support a mortgage application by a family member that risks adversely affecting their credit score if the purchaser defaults on the repayments.
- Do not want to be liable for a mortgage on a property they do not own.
- Are not willing to take independent legal advice before supporting a family member's mortgage application.
- Do not meet our lending criteria.

4. Customers with characteristics of vulnerability

The product is designed for borrowers requiring affordability support from a family member, which is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

For our target market, characteristics of vulnerability that may be experienced include those of:

- Resilience – outgoings exceed income, for example, more likely with those who have less experience of long-term borrowing like first time buyers.
- Life events – reduction in disposable income due to unemployment, ill-health, or the arrival of children, for example
- Life events – relationship breakdown may occur, particularly during periods of financial stress.

Where we identify customers displaying characteristics of vulnerability, we have a clear policy to offer support and to monitor that customers in these circumstances continue to be treated fairly and do not experience foreseeable harm.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the product.

Intermediaries should continue to comply with your obligations to ensure that you treat customers in vulnerable circumstances fairly.

5. Our assessment of value

We have developed an assessment process which evaluates several aspects of our business to determine the value of our mortgage products. This analysis is used to ascertain whether the product delivers fair value for customers.

We have implemented Fair Value into our pricing and approval process to evidence that we have considered fair value when we are setting the rates of our mortgage products and any fees we may charge. The outcomes of the assessment process are captured and reported, allowing for challenge and further investigation, before we sign-off the outcomes and share the summary of our assessment with you.

Our fair value assessment has considered the following:

Benefits	Price	Costs	Limitations
The range of features that the Product provides, the quality of the Product, the level of customer service that is provided and any other features that the Product may offer.	The interest rates, fees and charges customers pay for the Product, comparable market rates, advice fees paid to intermediaries and non-financial costs associated with operating the Product.	The cost of funding the Product and any other reductions in costs to the customer made possible by economies of scale.	Any limitations on the scope and service we provide or the features of the Product.

Results of our assessment

Our assessment concluded that the products continue to deliver fair value for the target market
